44th EDTNA/ERCA International Conference

September 26–29, 2015
Maritim, Hotel & Internationales Congress Center Dresden, Germany

Conference Theme: Quality and Safety in Renal Care: Shared Responsibility among Health Care Professionals and Patients

Final Programme
Acknowledgements

The EDTNA/ERCA would like to thank the following companies (in alphabetical order) for their generous support of the 44th EDTNA/ERCA International Conference:

- Amgen
- Baxter
- B. Braun
- DiaVerum
- Emodial
- Fresenius Medical Care
- Sanofi

The 44th EDTNA/ERCA International Conference is held under the auspices of Mrs. Barbara Klepsch, Saxon State Minister of Social Affairs and Consumer Protection.
Welcome Message from the EDTNA/ERCA President

Dear Colleagues and Friends,

It is with great honor that I welcome you to the 44th EDTNA/ERCA International Conference taking place in Dresden, Germany, 26th–29th September 2015.

This year’s Conference theme is: “Quality and safety in Renal Care: Shared Responsibility among Health Care Professionals and Patients”. We hope to achieve a high level of quality care for patients and their families through:

- Developing and continually updating renal care standards & guidelines
- Promoting the advancement of renal care through education and continuous professional development
- Creating awareness for our Members of social, cultural and ethical implications involved in the provision of renal care
- Initiating, promoting and conducting research in the renal care field

The Scientific Programme provides an excellent platform for us to share multi-disciplinary expertise, transfer knowledge, promote innovation that enhances practice and in turn improves patient care. An excellent number of scientific sessions, Industry sponsored sessions, especially workshops and posters were submitted, giving the opportunity for knowledge to be shared with experts in the field. A visit to the poster area is an excellent opportunity to discuss different topics with the authors in greater depth. The Scientific Programme will allow you to increase your knowledge through interaction during the Conference with other participants and the many experts presenting research from around the world.

You will have the unique opportunity to meet colleagues from many countries, exchange knowledge and experiences and share the way patients and their families are the main focus, in their daily practice.

In addition, you will have the unique opportunity to visit an exciting exhibition covering the most up to date technology and research in renal care. This exhibition is supported by our industry partners who have collaborated with us for many years with great results. I especially want to thank all of the people who have worked tirelessly with great skills and patience to facilitate this year’s Conference.

At the same time you can explore the beautiful and historical city of Dresden and learn about aspects of its history. I sincerely hope that you will have a memorable time.

I look forward welcoming you to the beautiful city of Dresden!

With kind regards

Marianna Eleftheroudi

Programme Highlights

Guest Speakers:
Professor Andrzej Więcek MD (Poland)
S 02 The condition of nephrology in Europe

Professor Przemyslaw Rutkowski MD (Poland)
S 04 Haemodialysis – Renal replacement therapy – the past and the future

Professor Rob Beelen MD (The Netherlands)
S 05 Peritoneal Dialysis – A follow up of The EuTRiPD programme (European Research and Training in Peritoneal Dialysis)

Dr Helen Noble RN (United Kingdom)
S 07 End of life Care – Palliative Care in Chronic kidney disease: capturing impact on patient and carers

Dr Nicola Thomas RN (United Kingdom)
S 08 Shared Decision Making – Quality Management – How to practically bring about a true partnership in renal care

Scientific session organized by EuDial (ERA-EDTA working group)
S 11 Haemodiafiltration: from idea to clinical practice
Q&A session will take place after session in Seminar Room 3

Speakers:
0 17 Dr. James Tattersall (UK)
The journey from low flux to high flux haemodialysis to haemodiafiltration

0 18 Dr. Peter Blankestijn (The Netherlands)
Clinical trials of higher convective volume haemodiafiltration

0 19 Dr. Andrew Davenport (UK)
Haemodiafiltration in clinical practice

Ms Jutta Balhorn RN (Germany)
S 12 Education – How to cope with increasing demands on renal nurses – stress management techniques
S 17 Safety in Dialysis – Quality and Safety in Renal Care: Shared Responsibility among Health Care Professionals and Patients

Mrs Victoria Alikari RN (Greece)
S 13 Psychosocial care – Identification of stress in dialysis patients: The role of the nurse

Dr Lionel Rostaing MD (France)
S 14 Transplantation – How to increase kidney transplantation? ABO-incompatible and/or HLA-incompatible transplants are one of the solutions

Dr Anne van Tellingen MD (The Netherlands)
S 15 Pre-dialysis – Prevention strategies for the pre-dialysis patient

Dr Ian Walsh MD (UK)
S 16 The patient experience – Patient Involvement – Patient Safety, Hierarchy and Cognition

Dr Franziska Frizen MD (Germany)
S 18 Cannulation Techniques – Are the common puncture techniques really up to date?
S 27 Vascular access – Best options for the creation of AV FISTULA/GRoFTs in diabetics

Professor Luisa Murer MD (Italy)
S 19 Care of the child with CKD – Renal transplant in very young children: a big challenge
S 22 CKD Risk factors & Prevention – Congenital anomalies of Kidney and Urinary Tract (CAKUT): from prenatal diagnosis to CKD in adulthood

Professor Paula Ormandy RN (United Kingdom)
S 21 E-technology in renal care – Impact of social media on patient information provision, networking and communication

Associate Professor Frantisek Lopot (Czech Republic)
S 23 Technical-Dialysis Adequacy – The neglected issue of dialysis time in evolution of haemodialysis adequacy
Dr Giovanni Strippoli MD (Italy)
S 24 Open Forum – Summarising evidence: the role of systematic reviews and the Cochrane Renal Group

Mrs Linda Gracey (United Kingdom)
S 28 The carer experience – Being a carer... the reality

Professor Wilfred Druml MD (Austria)
S 29 Nutrition – Intradialytic Nutrition in chronic haemodialysis patients

Mrs Afra Masià Plana RN (Spain)
S 31 Closing Ceremony – Quality versus Cost Sustainable Renal Care. In what direction are we heading?

Workshops & Masterclass:

Workshops in Research Skills
John Sedgewick (Saudi Arabia), Dr Helen Noble & Dr Nicola Thomas (United Kingdom)
Seminar Room 3, Monday, 28th September 2015
Workshop (1) at 09:00 & Workshop (2) at 11:00 (limited number of attendees)

Masterclass
S 30 Cure and care for the PD patient – The role of nurses in making choices
Prof Rob Beelen MD (The Netherlands)
Saal 2, Tuesday, 29th September 2015, 10:15

Lunchtime Sessions:

S 09 DOPPS Symposium (supported by Amgen)
The Dialysis Outcomes and Practice Patterns Study (DOPPS) Program Continues to Grow
Saal 1, Sunday, 27th September 2015, 12:45–13:45

The DOPPS program and EDTNA/ERCA: celebrating a 10 year partnership
Anna Marti (Spain)

New study directions: early findings from PDOPPS and CKDOPPS
Justin Albert (USA)

Recent trends in haemodialysis practices in the EURODOPPS countries
Werner Kleophas (Germany)

International changes in anemia management: a DOPPS update
Zehra Aydin (Turkey)

S 10 Greek Workshop
Evgenia Koinoviarchou MSc (Greece)
Plasmaphaeresis as a special treatment method in a haemodialysis unit of a general hospital. A nursing care approach.
Saal 2, Sunday, 27th September 2015, 12:45

Dr Panagiotis Pateinakis MD (Greece)
Plasmaphaeresis as a special treatment method in a Haemodialysis unit of a general hospital
Saal 2, Sunday, 27th September 2015, 12:45

PLEASE NOTE
There will be limited spaces available for the workshops which are held in Seminar Room 3 (maximum capacity of 49 delegates) and the lunch satellite symposia which are held in Saal 1 (maximum capacity of 426 delegates) & Saal 2 (maximum capacity of 433 delegates).

Short Orals
At the ‘Short Orals’ session nine successful abstract writers are asked to present their work in three minutes using three PowerPoint slides with 2 minutes for questions. This fast paced session will allow you to get up to date quickly with a number of initiatives being developed throughout Europe. Please join us on Monday, 28th September 2015 at the Saal 2, 14:00.
Corporate Education Sessions

S 03  CES Fresenius Medical Care
Transforming hidden resources into science: The Nursing Patient Assessment
Grosser Saal, Sunday, 27th September 2015, 9:00

S 06  CES Baxter
Making connections – improving quality of care in the dialysis unit and at home
Grosser Saal, Sunday, 27th September 2015, 11:00

S 20  CES B. Braun Avitum
Patient safety in renal care – ways to improve from all angles
Grosser Saal, Monday, 28th September 2015, 11:00

S 01  EDTNA/ERCA Projects with Industry Partners
Grosser Saal, Saturday, 26th September, 2015, 16:15
One of the Association’s objectives has opened doors for unlimited project partnership with renal companies and for this reason we continue to maintain strong collaboration with industry partners around the world. These well appreciated contacts help the Association to foster new ideas and keep the projects abreast of developments on a worldwide scale. Results from these projects will be presented at the Industry Plenary Session chaired by Jitka Pancirova, EDTNA/ERCA Executive Director.

Emodial Hospitality Suite – Seminar Room 4, Seminar Level
VASCULAR ACCESS MANAGEMENT
Emodial cordially invites all Delegates to attend the MINI EDUCATION SYMPOSIA that will be held during coffee and lunch break in the HOSPITALITY SUITE ON SEMINAR LEVEL.

With the purpose to explore some key questions in formats directly applicable to everyday clinical practice, Emodial offers to all the participants the chance to attend a series of short scientific sessions! Each of the MINI EDUCATION SYMPOSIA encourages interactive debate and offer an excellent opportunity to join the discussion.

Choose the topics that best suit your needs!
- Exit-site Management – How to prevent and treat infections
- Button Hole Management – How to overcome the weak points of the technique
- Patient Quality of Life – Water and Catheter: new frontiers for personal care, free time and sport

Annual General Meeting (AGM)
Saal 1, Sunday, 27th September, 2015, 17:45
The Annual General Meeting is the one opportunity for all members of EDTNA/ERCA to meet and exchange information with the elected volunteer leadership. Part of the AGM agenda will offer information about the previous and forthcoming activities of the Association where you will have chance to take an active part in the life of your Association.

Restriction of Taking Pictures
Participants are kindly reminded that photography is prohibited at all oral presentations to reduce disruption for speakers and the audience at the 44th EDTNA/ERCA International Conference. Official pictures will be available after the Conference on the EDTNA/ERCA website.

Scientific Presentations on Website
The scientific presentations will be available for EDTNA/ERCA members after the Conference on the EDTNA/ERCA website.

Electronic Abstract Book
The Abstract Book will be distributed on USB in electronic version only. Each delegate will receive a voucher to pick up the USB with Abstract Book at Baxter – stand No. 13 in the Exhibition area.
Poster Sessions

Posters will be displayed during all Conference dates, 26th–29th September, 2015.
Location: Saalfoyer, Saalebene / Hall Level
Mounting material (pins, tape) will be available at the Poster Desk located in the Poster area.

Poster Mounting
Saturday 26th September (12:00–18:00)

Poster Removal
Tuesday 29th September (11:45–13:00)
All posters not removed at the end of the Conference will be discarded.

Moderated Poster Sessions
All authors are requested to be present next to their poster during their allocated moderated poster session Saalfoyer, Saalebene / Hall Level.

PSA Haemodialysis
PSB Haemodialysis
P 001–P 016
P 017–P 034

PSB Education of Staff / Patients
P 035–P 052

PSD Vascular Access – Catheter Care
P 053–P 066

PSE Transplantation – Safety in Dialysis – The Carer Experience – Haemodialysis
P 067–P 082

PSF Peritoneal Dialysis
P 083–P 095

PSG Management, Quality & Audit / Staff Motivation-Leadership, CKD Risk Factors – Prevention & Delay,
Nutrition, Open Forum, Paediatric Care, Haemodialysis – Dialysis Adequacy
P 096–P 112

PSH Technical-Dialysis Adequacy, Psychological Care, Shared Decision Making – Quality Management
P 113–P 129

All posters are eligible for the Poster Scholarship but must be displayed until Tuesday 29th September 2015, 11:45.
Presentation of Best Poster – Scholarship award will be held at the Closing Ceremony, 29th September 2015, Saal 2, 12:00.

EDTNA/ERCA Manuscript Scholarship

Winner 1st prize: 500 € – Best Manuscript Scholarship
0 63
A survey of nephrology nurses’ oral health knowledge and oral care practices
Ho, T.M., Castillo, R., Junyent, E., Picart, M.C.
Department of Nephrology, Hospital del Mar – Parc de Salut Mar, Barcelona, Spain

2nd prize: 250 €
0 36
How do patients experience a kidney biopsy?
Finderup, J., Nielsen, M., Perchardt, L., Sander, M.
Department of Renal Medicine, Aarhus University Hospital, Aarhus, Denmark

3rd prize: Full year EDTNA/ERCA Membership to maximum of 3 contributors to the abstract
0 73
Effect of inadequate hemodialysis on a patient with plaque psoriasis
Avrami, C., viachou, D., Schoinas, A., Papatheodorou, G., Delimarkou, O., Karathanasis, D.
1Dialysis Unit, 401 Military Hospital of Athens, Athens, Greece

The Manuscript Scholarship will be presented during the EDTNA/ERCA Annual General Meeting held on Sunday, 27th September 2015, 17:45–19:15, Saal 1.
Scientific Programme

16:15–17:45 GROSSER SAAL

S 01 Industry Plenary Session
Chairs: Jitka Pancirova (Czech Republic), Anki Davidson (Sweden)

- Multilingual Patient Education Documents Project (phase 1 – CKD stages 1–3)
  EDTNA/ERCA project sponsored by B. Braun Avitum
  GS: Tai Mooi Ho (Spain)

- Multilingual Patient Education Documents Project (phase 2 – CKD stages 4–5)
  EDTNA/ERCA project sponsored by B. Braun Avitum
  GS: Paul Challinor (UK)

- Vascular Access Cannulation and Care Guide: A Year of International Experience
  Joint EDTNA/ERCA & Fresenius Medical Care project
  GS: Maria Teresa Parisotto (Germany)

- Safety going Digital
  Joint EDTNA/ERCA & Redsense Medical project
  GS: Jean Pierre van Waeleghem (Belgium)

- Care of Patients with Kidney Disease who have other Long Term Conditions

M. Rojo¹, R. Pelayo¹, M.E. Cuadrado¹, P. Martinez¹, E. Ibarguren¹, M. Gándara¹, M. Reyero¹
¹Nephrology, Hospital Universitario Marques de Valdecilla, Santander, Spain

P 032 Compliance with vaccination schedules in haemodialysis patients
E. Topbas¹, H. Bay¹, A.H. Emir¹, U. Çitak¹, B.B. Turan¹, T. Erdoğan Kavalalı¹
¹Nursing, Amasya University School of Health, Amasya, Turkey; ²Nursing, Avacık City Hospital, Samsun, Turkey

P 033 The duration of the fistula in haemodialysis patients with diabetes
A. Trzcinska¹
¹Medical University of Silesia, Polish Nurses Association, Katowice, Poland

P 034 Tailored meal for diabetic patients during dialysis: a challenge to be achieved
T. Zada¹, L. Michaelashvili¹, E. Boteach¹, T. Shorer¹, A. Shnider¹, M. Razon¹, V. Vernovski¹, L. Schwarz¹
¹Nephrology, Soroka University Medical Center, Beer-Sheva, Israel; ²Diabetes Clinic, Soroka University Medical Center, Beer-Sheva, Israel; ³Soroka University Medical Center, Beer-Sheva, Israel

Poster Session C – Monday
28th September 2015, 11:00–12:30

Education of Staff / Patients

P 035 Does humor effect nurse’s burnout?
M. Khaskiya¹
¹Nephrology & Hypertension Institute, Rabin medical center-hasharon hospital, Petah-Tikva, Israel

P 036 Buttonhole self-cannulation of arteriovenous fistulae
D. Toma¹, G. Ifrim¹, A. Ungureanu¹, T. Mihai¹, C. Surugiu¹, S. Dascalu¹
¹Dialysis, “C.I Parhon” Dialysis Center Fresenius NephroCare, Iasi, Iasi, Romania

P 037 Incident reporting: a tool for increased safety in haemodialysis therapy
I. Iliescu¹
¹FNC C. Davila, Fresenius Medical Care, Bucharest, Romania
P 038 “Socially treated” – increasing the patient’s social aspect in haemodialysis unit

R. Dahan¹
¹Nephrology, Rambam Health Care Campus, Haifa Bat Galim, Israel

P 039 Relationship between knowledge and sexual function in haemodialysis patients

N. Luxenburg¹, N. Shamir¹, M. Vilner¹, V. Shani¹
¹Nephrology, Sheba-Tel Hashomer, Ramat-Gan, Israel

P 040 Involvement of a reference nurse in the integration/monitoring of patients under haemodialysis

A. Martins¹, N. Gomes¹, A. Seabra¹, L. Rosa¹, J. Fazendeiro Matos², M.T. Parisotto²
¹NephroCare Coimbra, Fresenius Medical Care, Coimbra, Portugal; ²NephroCare Portugal, Fresenius Medical Care, Porto, Portugal; ³NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany

P 041 Intradialytic aerobic exercise programme: A way to improve functional capacity

P. Martins¹, R. Camisa¹, M. Agostinho¹, N. Gomes¹, L. Rosa¹, M. Marques¹, A. Seabra¹, J. Fazendeiro Matos², M.T. Parisotto²
¹NephroCare Coimbra, Fresenius Medical Care, Coimbra, Portugal; ²NephroCare Portugal, Fresenius Medical Care, Porto, Portugal; ³NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany

P 042 Nursing care in a multicultural context – Perception from the nurse’s point of view

C. Marquito¹, S. Oliveira¹, C. Gonçalves¹, F. Gomes¹, J. Fazendeiro Matos², C. Miriuinis²
¹NephroCare Vila Franca de Xira, Fresenius Medical Care, Vila Franca de Xira, Portugal; ²NephroCare Portugal, Fresenius Medical Care, Porto, Portugal; ³NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany

P 043 A novel education strategy to improve self-care of fluids in haemodialysis

A. Bonner¹², K. Havas¹, J. Owens¹, P. Nicholls², H. Healy², P. Bennett³, ⁴, R. Clark⁵
¹School of Nursing, Queensland University of Technology, Brisbane, Australia; ²Kidney Health Services, Metro North Hospital & Health Services, Brisbane, Australia; ³School of Nursing & Midwifery, Deakin University, Melbourne, Australia; ⁴Western Health, Melbourne, Australia; ⁵School of Nursing & Midwifery, Flinders University, Adelaide, Australia

P 044 The interaction between the experienced patient and the experienced and inexperienced nurse

M. Fettouhi¹
¹Nephrology department – haemodialysis, Odense University hospital, Odense, Denmark

P 045 / 0 75 Sponsoring patient decision making for renal replacement therapies

D. Heffernan¹, S. Thokala¹, K. Summers¹, H. Healy¹, P. Zivara¹, P. Nicholas¹, M. Hussain², A. Bonner¹, D. Ranganathan¹
¹Kidney Health Service, Royal Brisbane & Women’s Hospital, Brisbane, Australia; ²School of Population Health, University of Queensland, Brisbane, Australia; ³School of Nursing, Queensland University of Technology, Brisbane, Australia

P 046 Structured, accredited, in-service education addresses the needs identified by a training needs analysis (TNA)

A. Nundlall¹, H. Sorakhy¹, E. Cullimore¹, S. Alkharsheh¹, M. Richards¹
¹Nursing, SEHA Dialysis Services, Abu Dhabi, United Arab Emirates

P 047 Hemofiltration and Reinfusion (HFR): An educational movie to train our nursing staff

N. Van Paeschse¹, M. Roden¹, G. Anciaux¹, A. Kozyra¹, P. Janssens¹, C. Tielemans¹, Hemodialyse Nursing Staff UZ Brussel
¹Hemodialysis, UZ Brussels, Brussels, Belgium

P 048 Improving patients’ quality of life and family involvement by implementing a customised educational programme

A. Rodriguez Cejudo¹, J.F. Ferreira de Jesus¹, A. Martinez Miralles², F. Pelliccia², M.T. Parisotto²
¹Fresenius Medical Care, Leon Dialysis Clinic, Leon, Spain; ²Fresenius Medical Care, Nursing Care Coordination, Madrid, Spain; ³Fresenius Medical Care, NephroCare Coordination, Bad Homburg, Germany

P 049 Should patients after nephrectomy be taken care of by a nephrology and urology nurse?

A. Trzcinska¹
¹MU of Silesia, Polish Nurses Association, Katowice, Poland

P 050 / 0 69 Nursing education system in our network

Z. Karajzné Vartek¹, E. Ladányi¹
¹Nephrology Centre Miskolc, FMC, Miskolc, Hungary

P 051 Analysis of needlestick injuries in a haemodialysis center

K. Tiroly¹, T. Szabo¹
¹Dialysis Center #14, B.Braun Avitum Hungary, Kistarcsa, Hungary
Poster Session D – Monday
28th September 2015, 11:00–12:30

Vascular Access – Catheter Care

P 053 Difficult venous access in chronic haemodialysis patients
I. Iliescu
1 Fresenius Medical Care, Bucharest, Romania

P 054 Development of a user friendly vascular access toolkit
A. Fleet, C. Poole
1 Nephrocare Farnham Dialysis Centre, Fresenius Medical Care, Surrey, United Kingdom

P 055 Tunneled catheter as an alternative for haemodialysis vascular access
S. Klushenkova, T. Glushenkova, M.T. Parisotto, C. Miriunis
1 Fresenius NephroCare Dialysis Center, Fresenius Medical Care, Ulyanovsk, Russia; 2NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany

P 056 Malignant melanoma on the top of native arterio venous fistula
P. Demarchi, O. Dahmani, S. Chomicki, K. Malika, S. Paquet
1 Nephrology, CH Louis Jaillon, Saint Claude, France

P 057 Is the buttonhole cannulation technique superior to the rope-ladder technique?
1 NephroCare Fafe, Fresenius Medical Care, Fafe, Portugal; 23SIGIQ, Universidade Católica Portuguesa, Porto, Portugal; 3NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany

P 058 Central venous catheters for haemodialysis. Recommendations of good practice: a friendly user tool
M. Canzi
1 Saint’Orsola-Malpighi Hospital, Bologna, Italy

P 059 Rate of methods of blood access after 90 days – problems, solutions
E. Somogyine Pozsgai, A. Kiss, Z. Onody
1 Dialysis, B.Braun Avitum Hungary cPlc., Gyor, Hungary

P 060 The use of arteriovenous fistula catheters in patient with nonoptimal dialysis adequacy (case report)
B. Poje, Ž. Vidić, S. Šiljegović, B. Devčić, B. Vujčić, S. Rački
1 Department of nephrology, dialysis and kidney transplant, KBC Rijeka, Rijeka, Croatia

P 061 Influence on the inflammatory profile in haemodialysis patient after withdrawal of the venous catheter
R. Crespo, V. Eugenia Gómez, R. Casas, A. Carmona, M. Alcántara, M. Luisa Agüera, A. Isabel Roble López
1 Unidad de Gestión Clínica de Nefrología, Hospital Universitario Reina Sofía, Córdoba, Spain

P 062 Macrophotographic analysis of the button hole cannulation site: Effect of a silver medication
K. Monteverdi, A. Tantucci, C. Casci, M. Zeiler, S. Santarelli
1 Nephrology and Dialysis Unit, Ospedale “Carlo Urbani”, Jesi, Italy

P 063 Case of ruptured arterio-venous fistula
K. Balint, T. Szabo
1 Dialysis Center #14, B.Braun Avitum Hungary, Kisatcsa, Hungary

P 064 Knowledge of nurses from Silesia on dialysis patients vascular access care
E. Drzymała
1 PTPN, Katowice, Poland
P 065 Our experience with a nonconventional vascular access in haemodialysis: auricular/subclavian humeral shunt
L. Touron1, S. Ramos1, E. Regueiro1, L. Lago1, E. Petisco1, R. Pereiro1, M. Gil1, B. Pensado1, R. Rey1
1HCU, Santiago de Compostela, Spain

P 066 / O 72 Vascular access surveillance and monitoring programme – Early intervention benefits
P. Bento1, P. Lopes1, A. Reis1, C. Marchao1, J. Sequeira Andrade1, R. Peralta2, J. Fazendeiro Matos2
1NeproCare Entroncamento, Fresenius Medical Care, Entroncamento, Portugal; 2NephroCare Portugal, Fresenius Medical Care, Porto, Portugal

Poster Session E – Monday
28th September 2015, 14:00–15:30

Transplantation
P 067, P 069–P 071, P 075, P 076, P 078, P 079, P 082

Safety in Dialysis
P 066, P 072–P 074, P 081

The Carer Experience
P 077

Haemodialysis – Dialysis Adequacy
P 067, P 068, P 069–P 071, P 075, P 076, P 078, P 079, P 082

P 067 AB0- incompatable kidney transplant
V. Dvořáková1, C. Ostárková1
1Dialysis center Ostrava – Vítkovice, B. Braun Avitum s.r.o, Prague, Czech Republic

P 068 Corrective actions if the quality of the dialysis water exceeds the acceptable limits
M. Dusek1
1Dialysis center – Homolka, B. Braun Avitum s.r.o., Prague, Czech Republic

P 069 The long journey from drug addict to kidney transplant recipient. Case report
M. Svandrlikova1, A. Krausova1, L. Fantova1
1Dialysis Centre, B. Braun Avitum, Prague, Czech Republic

P 070 Benefits of a structured investigation procedure in the care of potential renal recipients
M. Bromander1, A. Johansson1, M. Rydström1, H. Hadimeri1
1Vastragotalandsregionen SKAS Njurmottagningen, Skövde, Sweden

P 071 An acute graft rejection after breast implants surgery in patient with kidney transplantation
D. Pelicic1, M. Ratkovic1, D. Radunovic1, V. Prelevic1
1Nephrology, Clinical Center of Montenegro, Podgorica, Montenegro

P 072 Staff Look for Coccus (Staphylococcus)
M. Zaher1
1Nephrology department, Nazareth Hospital, Nazareth, Israel

P 073 Advanced life support cardiac arrest treatment algorithm on haemodialysis
G.S. Aguilar1, A.J. Fernández1
1Formación e Innovación, Centro de Hemodiálisis Sierra Este. Diálisis Andaluza SL, Sevilla, Spain

P 074 Adult foreign-body airway obstruction treatment algorithm intradialytic
G.S. Aguilar1, A.J. Fernández1
1Formación e Innovación, Centro de Hemodiálisis Sierra Este. Diálisis Andaluza SL, Sevilla, Spain

P 075 Case report: Promoting patient compliance with best practise: Oral health after transplantation
M. Uštar1
1Nephrology, Kidney Transplantation Centre, University Clinical Centre, Ljubljana, Slovenia

P 076 Attitudes towards kidney transplantation based on having or not having acquaintances to undergo dialysis
E. Topbas1, C. Tastan1
1Nursing, Amasya University School of Health, Amasya, Turkey

P 077 The experiences of husbands who support their wives undergoing hemodialysis over a long period
M. Sayama1, S. Suzuki1
1School of Nursing, Dokkyo Medical University, Tochigi-ken, Japan
P 078 Outcomes following renal transplantation in older renal transplant recipients
B. Devcic1, I. Mikulasevic1, S. Racki1, M. Praskalo1, L. Orlic1, B. Poje1
1Department of Nephrology, Dialysis and Kidney Transplantation, University Hospital Centre Rijeka, Rijeka, Croatia; 2School of Medicine, University of Rijeka, Rijeka, Croatia

P 079 Cytomegalovirus disease after renal transplantation
B. Devcic1, Mikolasevic1, L. Orlic1, K. Anic2, M. Jakopcic2, S. Racki1, B. Poje1
1Department of nephrology, dialysis and kidney transplantation, University Hospital Centre Rijeka, Rijeka, Croatia; 2Infectious disease clinic, University Hospital Centre Osijek, Osijek, Croatia; 3School of Medicine, University of Rijeka, Rijeka, Croatia

P 080 Specialties of work on the isolation ward of dialysis centre University clinical center Ljubljana
Ž. Žele1, C. Likar1, R. Žugić1
1Nephrology, University Medical Centre, Ljubljana, Slovenia

P 081 Fall prevention of chronic dialysis patients
Ž. Žele1, R. Zugić1, C. Likar1
1Nephrology, University Medical Centre, Ljubljana, Slovenia

P 082 Transplantation – the opinion of nurses and midwives
A. Kliś1
1Polish Renal Nurses Association, Bielsko-Biała, Poland

Poster Session F – Monday
28th September 2015, 14:00–15:30

Peritoneal Dialysis

P 083 Diabetic patients are prone to peritoneal dialysis-related infection: a case-control study in Taiwan
H.L. Chen1–2, K.L. Chi1–5, Y.H. Huang1, T.F. Shiung1, L.H. Huang2
1Department of Nursing, Taipei Veterans General Hospital, Taipei, Taiwan; 2Department of Nursing, College of Medicine, National Taiwan University, Taipei, Taiwan; 3Department of Nursing, College of Nursing, National Taipei University of Nursing and Health Sciences, Taipei, Taiwan

P 084 Automated peritoneal dialysis – The best treatment option for patients over 60 years old
N. Zaburdaeva1, T. Blushenkova1, M.T. Parisotto2, C. Miriumis3
1Fresenius NephroCare Dialysis Centre, Fresenius Medical Care, Ulyanovsk, Russian Federation; 2NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany

P 085 Continuous education of peritoneal dialysis patients
Miličić Andreja1, Mirjana Maretić Dumić1, Nikola Bašić Jukić1, Kljak Milica1
1Department of nephrology, dialysis and transplantation, UHC Zagreb, Zagreb, Croatia

P 086 Two case studies: the PD nurse’s educative role
A. Szigeti1
18. Dialysis Centre, B.Braun Avitum Hungary Pltd, Tatabánya, Hungary

P 087 The implementation of treatment and education of elderly and prostate patients
Barna Gyöngyi1
110 Dialysis Centre, B.Braun Avitum Hungary Pltd, Debrecen, Hungary

P 088 When should peritoneal dialysis be resumed after gynaecological laparotomy?
M. Mateičić1, L.J. Peter1, N. Bednjanec2
1Renal Replacement Therapy Unit, Merkur University Hospital, Zagreb, Croatia; 2Kirkomerc d.o.o., Zagreb, Croatia

P 089 The effect of AA solutions on the albumin levels in CAPD patients with hypoalbuminaemia
G. Ogut1, S. Kahvecioglu1, C.B. Gul1, E. Acar1, S. Alsancak1, Z. Dogrusoz2, R. Korkmaz2, N. Kiriciimli2, N. Yilmazer3
1Peritoneal Dialysis, Bursa Sevket Yilmaz Research Hospital, Bursa, Turkey; 2Peritoneal Dialysis, Uludag University, Bursa, Turkey; 3Peritoneal Dialysis, RTS Rentip Dialysis Center, Bursa, Turkey
P 090 Examination of disease understanding, knowledge, attitude and behavior in patients on PD
G. Ogut1, S. Kahvecioglu1, E. Acar1, C.B. Gul1, S. Alsancak1
1Peritoneal Dialysis, Bursa Sevket Yilmaz Research Hospital, Bursa, Turkey

P 091 Outer cuff repair in Peritoneal Dialysis Patients
D.D. Balci1, D. Efeyurtlu1, A. Inci1, F. Sari1, A.M. Sarikaya1
1Peritoneal Dialysis, Antalya Training and Research Hospital, Antalya, Turkey

P 092 Blood glucose regulation of diabetic nephropathy with APD. A case report
G. Ogut1, S. Kahvecioglu1, C.B. Gul1, E. Acar1, S. Alsancak1
1Peritoneal Dialysis, Bursa Sevket Yilmaz Research Hospital, Bursa, Turkey

P 093 34 years of education for CAPD patients in Croatia – where we are today
N. Graho1, A. Tomas Valentovic2, N. Bednjane2
1General hospital “dr. Ivo Pedišić”, Sisak, Croatia; 2Kirkomerc d.o.o., Zagreb, Croatia

P 094 Job satisfaction and associated factors among haemodialysis and peritoneal dialysis nurses
A. Karakoc1, M. Yilmaz2, N. Alcalar3, B. Esen1, H. Kayabasi1, D. Sit1
1Dialysis Unit, Bagcilar Educational and Research Hospital, Istanbul, Turkey; 2Nephrology, Bakirkoy Dr. Sadi Konuk Educational and Research Hospital, Istanbul, Turkey; 3Psychiatry, Istanbul University Istanbul Medical Faculty Psychiatry, Istanbul, Turkey

P 095 Type 1 and 2 diabetics in the peritoneal dialysis programme
M. Juhászné Leskó1, G. Győrfi1, E. Ladányi1
1Nephrology Centre Miskolc, FMC, Miskolc, Hungary

Poster Session G – Monday
28th September 2015, 16:00 – 17:30

| Management, Quality & Audit / Staff Motivation–Leadership | P 096 |
| CKD Risk Factors & Prevention | P 097 |
| Nutrition | P 098, P 099, P 101, P 109 |
| Haemodialysis – Dialysis Adequacy | P 100, P 107, P 111 |
| Open Forum | P 102, P 104, P 106, P 108, P 110, P 112 |
| Paediatric Care | P 103 |
| CKD Prevention and Delay | P 105 |

P 096 Advanced nursing practice in dialysis: effect of the renal access coordinator on patient outcomes
M. Schoch1, P. Bennett1, R. Fiolet1, B. Kent2, C. Au3
1School of nursing and midwifery, Deakin University, Victoria, Australia; 2School of nursing and midwifery, University of Plymouth, Plymouth, United Kingdom; 3Centre for nursing research, Deakin University and Monash Health partnership, Victoria, Australia

P 097 Active approach to senior patients requiring nephrological care
K. Filipová1, M. Dušek1, I. Jordanov1
1Dialysis center – Homolka, B. Braun Avitum s.r.o., Prague, Czech Republic

P 098 Nutritional supplementation in dialysis patients suffering from malnutrition
P. Pokorová1
1Dialysis center – Černý Most, B. Braun Avitum, Prague, Czech Republic

P 099 Dietary habits of patients treated with haemodialysis
R. Mateljic1, N. Hrdan1
1Institute of Nephrology, Clinical Hospital Merkur, Zagreb, Croatia

P 100 / O 71 Exercise training programme: Adherence and satisfaction
M. Agostinho1, R. Camisa1, P. Martins1, N. Gomes1, L. Rosa1, M. Guedes1, A. Seabra1, J. Fazendeiro Matos2, M.T. Parisotto3
1NephroCare Coimbra, Fresenius Medical Care, Coimbra, Portugal; 2NephroCare Portugal, Fresenius Medical Care, Porto, Portugal; 3NephroCare Coordination, Fresenius Medical Care, Bad Homburg, Germany
P 101 Prevention of malnutrition and inflammatory stimuli in dialysis patients: role of the team nursing
U. Tulli1, L. Lombardi1, E. Valeri1
1UOC Nephrology and Dialysis, PO Tivoli, Tivoli (Rome), Italy

P 102 The role of a nurse in the treatment of acute renal failure
S. Eberl1, Z. Kupnik1, V. Balevska1 R. Ekart1
1Department of Dialysis, University Medical Centre Maribor, Maribor, Slovenia

P 103 Distracting babies during peritoneal dialysis by harmonious/rocking movement
J. Hadad1
1Pediatric nephrology, Soroka hospital, Beer Sheva, Israel

P 104 The power of a smile...
I. Moga1
18. Dialysis Centre, B.Braun Avitum Hungary Pltd., Tatabánya, Hungary

P 105 Outcome of our predialysis patient population between 2009-2014
I. Szakacs1, T. Csitkovics Toth1, I. Kulcsar1,2
1B.Braun Avitum Hungary cPtc. Dialysis Centre No. 6, Szombathely, Hungary; 2Markusovszky Teaching Hospital, Szombathely, Hungary

P 106 The take habits of over the counter NSAID medications among the kidney failure patients
K. Tögyesi1, A. Benke1
13rd Dialysis Center, B.Braun Avitum, Veszprém, Hungary

P 107 / O 73 Effect of inadequate hemodialysis on a patient with plaque psoriasis
C. Avrami1, D. Vlachou1, A. Schoinas1, G. Papatheodorou2, O. Delimarkou1, D. Karathanasis1
1Dialysis Unit, 401 Military Hospital of Athens, Athens, Greece; 2Research Unit, 401 Military Hospital of Athens, Athens, Greece

P 108 Sexual dysfunction in patients on chronic haemodialysis
M. Mihalic1, L. Katalinic1, V. Premuzic1, B. Jelakovic1
1Department of nephrology, arterial hypertension, dialysis and transplantation, University Hospital Centre Zagreb, Zagreb, Croatia

P 109 Evaluation of nutritional status in haemodialysis patients: impact of autonomy degree and alimentary habits
E. Cimadoro1, V. Aicardi2, C. Boriotti1, R. Pirovano1, O. Gatti1, B. Cattaneo1, C. Colombo1, B. Faedda1, C. Milani1
1Nephrology and Dialysis, A.Manzoni Hospital, Lecco, Italy; 2Nephrology and Dialysis, Indisa and Alemana Hospitals, Santiago de Chile, Chile

P 110 Physical assessment, fitness and quality of life in patients undergoing different renal replacement therapies
M. Brazalez1, S. Hernández2, N. GaratACHEa, A. Santos3, G. González-Calvo2, D. García2
1Nephrology Service, Hospital in Valladolid, Valladolid, Spain; 2Laboratory of Physiology – Faculty of Health Sciences, Miguel of Cervantes European University, VALLADOLID, Spain; 3Department of Physiotherapy and Nursing, Faculty of Health Sciences and Sport- Zaragoza University, Zaragoza, Spain

P 111 Laughter yoga during haemodialysis treatment
Z. Bošeska1, Ž. Žele1, C. Likar1
1Nephrology, University Medical Centre, Ljubljana, Slovenia

P 112 Hepatitis E virus infection in haemodialysis nursing staff in Athens, Greece
D. Topka1, L. Theodosopoulos2, I. ElefsoNIOtis1, M. Mavrouli1, G. Vrioni1, A. Tsakris3
1Internal Medicine, Faculty of Nursing-University of Athens, Athens, Greece; 2Hemodialysis Unit, West Attica General Hospital, Agia Varvara, Greece; 3Microbiology, Medical School-University of Athens, Athens, Greece
Poster Session H – Monday
28th September 2015, 16:00–17:30

Technical – Dialysis Adequacy
Technical – Dialysis Adequacy
Psychological Care
Psychological Care
Psychological Care of Patients, Carers & Staff
Transplantation
Shared Decision Making – Quality Management

P 113 Can body composition and haemoglobin level influence the Kt/V?
C.F. Coman¹
¹Fresenius NephroCare, Bucharest, Romania

P 114 The sense of coherence and quality of life of haemodialysis patients
D. Toma¹, A. Tasmoc²
¹Dialysis , C.I Parhon” Dialysis Center Freseniu NephroCare, Iasi , Romania; ²Nephrology, Gr. T. Popa University of Medicine and Pharmacy, Iasi, Romania

P 115 Renal transplantation – A chance for a new life
A. Bastar¹
¹Carol davila, Fresenius Medical Care, Bucharest, Romania

P 116 Emotional intelligence and proactive role in haemodialysis therapy
D. M. Marita¹
¹FNC C. Davila, Fresenius Medical Care, Bucharest, Romania

P 117 Psychological stress among nursing personnel in dialysis centres
A. Kvaňová¹
¹Dialysis center – Bílovec, B. Braun Avitum s.r.o., Prague, Czech Republic

P 118 Management of a H1N1 outbreak in a satellite dialysis unit in the United Kingdom
M. Allyn¹
¹Clinics, Fresenius Medical Care Renal Services UK Ltd, Chandlers Ford, United Kingdom

P 119 How and why a positive ethos delivers outstanding patient satisfaction
L. Hansen¹
¹Haemodialysis clinic, Fresenius Medical Care Renal Services Ltd, Stratford upon Avon, United Kingdom

P 120 Reduction of the environmental burden: multi-disciplinary waste management in an Italian dialysis unit
L. Trombia¹, D. Galli², M. Moretti¹, F. Pelliccia¹, M. T. Parisotto²
¹NephroCare Italia SpA, Napoli, Italy; ²NephroCare Italia SpA – Only Dialysis, Fiumicino (Romal, Italy;

P 121 The Balanced Scorecard – How to use metrics to improve haemodialysis treatment outcomes
C. Popescu¹, M. Preda¹
¹Medical, Fresenius Medical Care, Bucharest, Romania

P 122 Quality management – important nursing role in a dialysis unit
P. Gonçalves¹, R. Sousa¹, S. Campos¹, J. Melo¹, R. Peralta², J. Fazendeiro Matos²
¹NephroCare Viseu, Fresenius Medical Care, Viseu, Portugal; ²NephroCare Portugal, Fresenius Medical Care, Porto, Portugal

P 123 Impact of a dialysis treatment on daily life
E. Hallez¹, K. Dierickx², C. Debaere¹, D. Kuypers¹, K. Claes¹
¹Nephrology, University Hospitals, Leuven, Belgium

P 124 “The Art Of Healing” – way of coping haemodialysis patients
M. Buchnik¹
¹Nephrology, Rambam Medical Center, Haifa Bat Galim, Israel
P 125 / O 68 Patient satisfaction with nurse-led chronic kidney disease clinics: A multisite quality improvement study

A. Bonner1,2, S. Coleman3, K. Havas1, B. Taylor1, C. Stone3, S. Ersham4, A. Graham5, L. Bublitz6

1School of Nursing, Queensland University of Technology, Brisbane, Australia; 2Kidney Health Services, Metro North Hospital and Health Services, Brisbane, Australia; 3Renal Department, Logan Hospital, Brisbane, Australia; 4Renal Services, Princess Alexandra Hospital, Brisbane, Australia; 5Renal Services, The Townsville Hospital, Townsville, Australia; 6Renal Services, Gold Coast University Hospital, Surfers Paradise, Australia

P 126 Streamlining high quality and safe practices in a newly developed haemodialysis unit

C. Adams1

1Heamodialysis Unit, Beacon Renal Drogheda, Drogheda, Ireland

P 127 One way, many paces – unique inspiration to win through disease

A. Paar1, L. Ledo1, Z. Onody1

1B.Braun Avitum Hungary cPlc., Gyor, Hungary

P 128 Stress and anxiety level of patients waiting for cadaveric renal transplantation

M. Yilmaz1, F.G. Akbay1, R. Calayoglu1, A. Karakoç2, S. Kocak Yucel1, A. Cobanoglu1, Y. Okuturlar1, O. Harmankaya Kaptanogullari3

1Nephrology, Bakirkoy Dr. Sadi Konuk Training and Research Hospital, Istanbul, Turkey; 2Dialysis, Bagcilar Training and Research Hospital, Istanbul, Turkey

P 129 Anaemia correction with bioimpedance spectroscopy measurement

Mónika Vitányiné Mitró1, Ibolya Jónás1, Attila Nagy1

1Dialysis Centre Sátoraljaújhely, FMC, Sátoraljaújhely, Hungary
Science and Technology Exhibition

The industry exhibition of dialysis equipment, manufacturers and pharmaceutical companies will be held during the Conference.

List of Exhibitors (in alphabetical order):

Arbor Research
Arbor Research is a not-for-profit research organization based in Ann Arbor, Michigan, USA, conducting large studies in epidemiology and public health. With particular expertise in biostatistical analysis, clinical practice, the management and integration of large data sets, economics, and public policy, Arbor Research engages in health outcomes research on chronic disease and end-stage organ failure, currently including the international Dialysis Outcomes and Practice Patterns Study (www.dopps.org).

Address: Arbor Research Collaborative for Health
340 East Huron Street, Suite 300, Ann Arbor, Michigan 48104, USA
Contact person: Christina Pustulka
Tel.: +1.734.665.4108
Fax: +1.734.665.9642
E-mail: christina.pustulka@arborresearch.org or DOPPS@ArborResearch.org

B. Braun Avitum AG
B. Braun Avitum is a leading provider of dialysis care services and products for more than 30 years. The product range includes dialysis machines and consumables for chronic and acute dialysis as well as a comprehensive product portfolio for special blood cleansing processes. The company offers an integrated system composed of perfectly harmonized components. These include a wide range of therapy options, software solutions, full technical service support, expert process consulting, complete planning, installation and training services. Customers profit from the expertise of an all-round system supplier with comprehensive knowledge and experience. The company operates in nearly 300 dialysis centers – all featured with state-of-the-art equipment and serviced by highly professional healthcare staff.

Additionally, services such as diet programs, holiday dialysis and pre-dialysis programs are offered in most countries, and B. Braun Avitum cooperates fully with local transplant organizations. B. Braun Avitum is a holder of the EN ISO 9001 quality certificate and the Good Dialysis Practice certificate. B. Braun has made important contributions to modernizing healthcare systems, particularly in Eastern Europe.

Dialysis Team

Dialysis Team is an innovative dialysis and renal recruitment organisation which delivers staffing solutions for dialysis organisations and their staff. Based in the UK we work with dialysis professionals across Europe and all around the world. We recruit right across the dialysis world from clinical teams to sales, marketing and management.

We have many years of experience working in the dialysis world and are experts at networking and bringing people together. We have a global dialysis database of dialysis units and staff at our disposal. Working with dialysis providers, of all shapes and sizes, we help them find clinical and managerial staff – dialysis nurses, technicians, nephrologists, social workers, dieticians and unit managers. We also work with all clinical, managerial and commercial team members to help them develop their careers and find roles most appropriate for them to help them achieve their long term goals. We are team builders and very much a relationship organisation. We ask intelligent questions, formulate and execute solid plans to help dialysis employers find awesome staff. To explore job opportunities across Europe or further afield or to discuss your career in general, please do drop by our booth for a chat. Alternatively if you’re a dialysis employer and you’re looking for staff please come and discuss how we can help you.

We appreciate that you may be happier chatting off the stand so let us know and we can arrange another time. Please do drop us an email to katydraper@dialysisteam.com for further information.

Address: Summerfield House, 79 Elder Lane, Griffydam, Coalville, Leicestershire, LE678HD, UK

Diaverum

Diaverum is Europe’s largest product-independent and one of the world’s leading renal care service providers. The company has 20 years’ experience in the area of dialysis, going back to its time as part of Gambro – a Swedish healthcare specialist. Swedish roots, an international approach: the patient’s quality of life is at the centre of all activities. The high focus on medical quality, preventive care, management and the treatment of kidney disease, as well as its individual patient care focus, makes Diaverum unique. Today, 8,500 employees care for more than 26,000 patients in 20 countries in Europe, Latin America, Middle East, Australia and Eastern Europe. Diaverum has its roots in Lund, Sweden and a corporate office located in Munich, Germany.

Address: Diaverum, Barer Straße 7, 80333 Munich, Germany

Emodial Srl

Emodial Srl was established in 1982 in Ferrara, Italy, and operated since then in the field of hemodialysis becoming throughout the years one of the leading companies, specializing its activity in advance dressings for vascular access.

Thanks to the cooperation given by leading Dialysis Centers, we designed high-tech products, alternative to the traditional cotton or nonwoven pads.

We supply: devices for the disposal of used fistula needles; exit-site and fistula dressings based on silver which helps to control the risk of infections of the vascular access; waterproof catheter protection pockets; ON/OFF SETS for hemodialysis catheters and peritoneal dialysis.

Address: Via Finati 4/A, 44124 Ferrara, Italy

Fresenius Medical Care Deutschland GmbH

Fresenius Medical Care is the world's leading provider of products and services for people with chronic kidney failure. More than 2.6 M patients with this disease worldwide regularly undergo dialysis treatment. We care for nearly 300,000 patients in our global network of more than 3,300 dialysis clinics. At the same time, we operate 40 production sites on all continents, to provide dialysis products such as dialysis machines, dialyzers and related disposables. Our strategy is geared toward sustainable growth. We aim to continuously improve the quality of life of patients with kidney disease by offering innovative products and treatment concepts of the highest quality.

NephroCare is the service brand of Fresenius Medical Care. NephroCare provides services in dialysis centres in more than 30 countries across Europe, Middle East, Africa and Latin America. NephroCare’s commitment to excellence and the resulting comprehensive business model drives us to work closely with the healthcare authorities to ensure affordable renal care. Now and in the future, for the maximum possible number of patients. NephroCare’s specialised professionals know there is much more to renal replacement therapy than just dialysis and transplantation. Training, education and continuous qualification processes have a direct impact on the quality of care delivered to the patients.

With NephroCare, Fresenius Medical Care has the responsibility to support healthcare systems with innovative care concepts, and to provide sustainable, affordable and high quality care for the continuously increasing numbers of chronic renal patients.

Nikkiso Europe GmbH

NIKKISO, a pioneer in blood purification strives to advance complex medical technology and supplies that optimise patient care, improve clinical efficiency, and reduce costs over the life cycle of the machine. Nikkiso has addressed the needs of caregivers so they can focus on their patients who need our products. Nikkiso has built a global reputation for unparalleled quality, dependability and exquisite engineering that’s driven by a desire to improve patient outcomes and achieve higher customer satisfaction.

NIKKISO Europe GmbH, the European entity, is responsible for the distribution of our excellent technologies in Europe, Middle East and Africa, together with our strong distributor network. At the EDTA congress in London in May 2015, NIKKISO launched the new dialysis machine DBB-EXA. DBB-EXA is a compact, user-friendly and cost efficient dialysis monitor providing a safe and adequate hemodialysis. With the inherited reliability of the time-proven DBB series as well as innovative features and an intuitive user interface, DBB-EXA meets the needs of modern dialysis facilities. DBB-EXA paired with the option D-FAS [Dialysis Fully-Automated System] automates routine dialysis tasks and so, brings back the nursing staff to patients’ care!

To discover the Breakthrough in Usability and our new dialysis machine DBB-EXA, please come and visit our stand No. 8 or our website: http://www.nikkiso-europe.eu/DBB-EXA.

**Redsense Medical AB**

The Redsense Blood Loss Detection Device

Medical professionals have long been aware of the risk of venous needle dislodgement during dialysis treatment. Developed in response to their demands, Redsense is a vital aid to the dialysis caretaker, with intent to increase patient safety in clinic, nocturnal and at home.

Redsense consists of two parts: a sensor patch and an alarm unit. An optical signal is transmitted from the alarm unit to the sensor patch using fiber optic technology. In the event of bleeding, Redsense will trigger the alarm when blood comes onto the fiber optic point in the absorbent pad of the sensor. For more information, visit Redsense Medical at www.redsensemedical.com.

**Address:** Redsense Medical AB (publ.)
Gyllenhammarsv. 26, 302 92 Halmstad

**Sanofi**

Sanofi, a global healthcare leader, discovers, develops and distributes therapeutic solutions focused on patients’ needs. Sanofi’s mission is to protect the health, improve the quality of life and meet the needs and hopes of the world’s 7 billion population.

Sanofi has core strengths in diabetes solutions, human vaccines, innovative drugs, consumer healthcare, emerging markets, animal health and Genzyme.

The group is present in around 100 countries over five continents and employed more than 110,000 people at the end of 2014. The strategy of Sanofi is deployed in the service of 3 commitments to make a difference to people lives and transform innovation into therapeutic solutions for patients:

1. Exploring the boundaries of medical innovation,
2. Preventing diseases and supporting patients
3. Improve access to healthcare for all in the world.

The group is organized around three main business segments: pharmaceuticals, human vaccines (Sanofi Pasteur) and Animal Health (Merial).

---

**Exhibition Floor Plan**
Practical Conference Information A–Z

Abstract Book
The Abstract Book will be distributed on USB in electronic version only. Please pick up the Abstract Book at the Baxter – stand No. 13 in the Exhibition area (please present the voucher received in the Conference Bag).

The Abstract Book will also be available on the Association’s website after the Conference.

Accreditation of Learning Hours
The 44th EDTNA/ERCA International Conference will be accredited by the International Council of Nurses (ICN) who provides International Continuing Nursing Education Credits (ICNEC). The total number of credits is 17.5.

1 credit will be assigned for each 60 minutes spent within the session halls, this is flexible and allows delegates to change between sessions and continue to accumulate credited time.

PLEASE NOTE: the ICNEC certificate will be granted by the ICN and requires an Attendance Verification Form. This Form will be available from the Registration Desk during the Conference and it is to be filled (address and email) and signed by the delegate and returned to the Registration staff.

A Certificate detailing the number of credits achieved will be provided after the Conference.

A Certificate of Attendance will be provided by the Registration Desk on the final day of the Conference as usual or you can apply via email at edtnaerca2015@guarant.cz.

Please note each participant is responsible to ensure his/her barcode is scanned upon entering a session.

Badges
Each participant will receive a name badge upon registration. Badges must be worn at all times to enable session attendance and to be tracked for education accreditation. The barcode on your badge is scanned on entering and leaving each session hall. Credits will be assigned according to information received from the barcode system. This information is also used for safety reasons to record participants actually in the building in case of emergency. Therefore it is important you present your badge with barcode at each session hall.

Coffee Breaks and Lunches
Coffee/tea will be served during the morning and afternoon breaks. Lunch boxes will be distributed upon presentation of a valid voucher on Sunday, 27th September and Monday, 28th September. These refreshments are included in the registration fee.

EDTNA/ERCA Booth
Don’t miss the opportunity to visit our EDTNA/ERCA booth located in the Exhibition Area. There will be plenty of opportunities for you to share your experience and knowledge with your friends and colleagues, learn more about our ongoing activities within our Association. Talk to our volunteers who will gladly talk to you about their work for EDTNA/ERCA in the past year. Brand Ambassadors will be more than happy to help you with any language problems. You will also have the opportunity to learn more about the EDTNA/ERCA project website which provides up-to-date information related to a wide range of EDTNA/ERCA projects. The intention of the website is to provide a clear and practical place where those working with renal patients can access the Association’s extensive range of education and research to support and develop evidence based best practice in renal care.

Our well-known handbooks are targeted at nurses and other renal care professionals to provide up-to-date knowledge and expertise useful for all areas of renal care. The handbooks and other publications will be available in our booth.

You are very much Welcome to visit our EDTNA/ERCA booth and learn more!

EDTNA/ERCA Conference Department
Conference Department Staff will be available at the Registration Desk during the Registration opening hours. After the Conference please kindly email to edtnaerca2015@guarant.cz.
Evaluation Form
To assist in the continual improvement of the Conference please take the time to complete the Conference evaluation provided at the entrance to the halls or at the EDTNA/ERCA stand. Please return the completed form to the EDTNA/ERCA Booth or to the Registration Desk – available in English, Spanish, French, German and Czech.

Emergency Numbers
Police: 110
Fire Department: 112
Ambulance: 112

Facebook
For updated information visit us on Facebook.

Hotel
If any assistance is required please kindly contact the Accommodation Desk in the Registration Area. The Conference Department Staff will do their best to help you during scheduled Opening hours.

Insurance
The organisers do not accept liability for personal injury or loss or damage to private property of delegates and accompanying persons, either during or while travelling to and from the 44th EDTNA/ERCA International Conference.

Internet
The WiFi connection is available upon on-line payment. Please open Telecome network and follow the instructions. For more information do not hesitate to contact staff at the registration desk.

Language
The official language of the Conference is English. Sessions held in the main hall will however be interpreted into French, German and Spanish.

Lost and Found
Lost property can be handed to or collected at the Registration Desk.

Mobile Phones
Mobile phones must be switched to silent mode or switched off during the sessions.

Poster Area
The Poster Area is located on the 1st Floor, Hall Level.

Photography
Participants are kindly reminded that photo shooting is prohibited at all oral presentations to reduce disruption for speakers and the audience at the 44th EDTNA/ERCA International Conference.

The presentations will be available for EDTNA/ERCA members after the Conference on the EDTNA/ERCA website.

Social Events

Opening Ceremony, Welcome Cocktail and Exhibition Opening
Saturday, 26th September 2015
18:00–19:30 Opening Ceremony, Grosser Saal
19:30–21:30 Welcome Cocktail & Exhibition Opening

The Official Opening of the Exhibition will follow directly after the Opening Ceremony.

A Welcome Cocktail will be offered in the Exhibition Area to all delegates and exhibitors (included in the delegates’ and accompanying persons’ registration fee).
About EDTNA/ERCA

The European Dialysis and Transplant Nurses Association/European Renal Care Association (EDTNA/ERCA) was established in 1971 to address the special educational needs of nurses and other healthcare professionals caring for patients who suffer from Chronic Kidney Disease. This includes all aspects of renal treatment prevention and early detection of Chronic Kidney Disease, management of dialysis therapy, transplantation and supportive care. Since then, the Association has grown to become one of the most important forums in Europe for exchanging of information and experience for all members of the renal care team who treat and care for patients suffering from renal failure.

EDTNA/ERCA is a multi-disciplinary organization of individual members. Association membership is open to nurses, technicians, social workers, dieticians, unit managers, transplant co-ordinators, and any other professionals working with renal patients. EDTNA/ERCA has currently about 1600 members from more than 70 countries.

The EDTNA/ERCA has expert clinician-based volunteers from a variety of healthcare fields. The volunteers are working collaboratively through project groups supported by Consultants in the following areas: Anaemia, Nutrition, Psychosocial Care, Peritoneal Dialysis, CKD, Education and Haemodialysis.

The aim is to establish a network of professionals to share their knowledge and expertise, developing education materials, initiating research projects and producing publications as a support tool in the training of staff members in renal units.

Our Consultants are:
- CKD – Karen Jenkins (UK)
- Anaemia – Lesley Bennett (UK)
- Nutrition – Liana Poulia (Greece)
- Peritoneal Dialysis – Aase Riemann (The Netherlands)
- Education – John Sedgewick (Saudi Arabia)
- Psychological care – Mike Kelly (Ireland)
- Haemodialysis – Ruben Iglesias (Spain)

Further information about Consultant projects is available at the Association website www.edtnaerca.org.

Corporate Membership

The companies listed on this page embrace the EDTNA/ERCA’s objective of improving the quality of care given to renal patients. Their active participation and support of Association activities throughout the year is the best evidence of our shared commitment. We are proud to acknowledge them as Corporate Members of our Association and look forward to further collaboration in the future.

Amgen Europe Ltd., Switzerland
Baxter, Switzerland
B. Braun Avitum AG, Germany

Diaverum, Sweden
Fresenius Medical Care, Germany
Kuratorium für Dialyse und Nierentransplantation e.V., Germany

Patienten-Heimversorgung, Germany
Redsense Medical, Sweden
Sanofi, France

Corporate Membership is open to any company sharing the interests of EDTNA/ERCA and the renal care team.

Corporate Members:
- Receive recognition at the International Conference and through its promotional brochures (2nd Announcement and Final Programme)
- Receive 5 registrations for the International Conference with entry rights to the scientific sessions at the low “member early participation fee”
- Receive visibility on www.edtnaerca.org
- Obtain access to all individual Member benefits including copies of all publications, the Journal of Renal Care®, the Association’s quarterly Newsletter and E-blast

For more information please visit: www.edtnaerca.org/corporate.
Become a Part of the EDTNA/ERCA Community

As an EDTNA/ERCA member you will benefit from professional support, knowledge exchange and numerous personal learning opportunities on a national and international level.

Stay informed about the latest renal care treatment developments and the Association’s activities at a national and international level through the EDTNA/ERCA regular publications Journal of Renal Care and the Newsletter, EDTNA/ERCA mass mailings, web, Twitter, LinkedIn, Facebook, EDTNA/ERCA International Conference and EDTNA/ERCA seminars.

Participate in the EDTNA/ERCA International Conference and country seminars with special member only conditions.

Join the EDTNA/ERCA volunteers’ team and take part in European renal care quality advancement.

Get access to all EDTNA/ERCA publications and educational materials through www.edtnaerca.org members only section.

Get copies of all printed publications and in your language when available. Every year you can see the updated EDTNA/ERCA Publications Portfolio to decide which publications are of your interest.

**Electronic Library**

EDTNA/ERCA Consultants are working on papers for the Electronic Library as an educational resource for Health Care Professionals (HCP).

The purpose of this ongoing project, led by Karen Jenkins and Lesley Bennett, is to create easily accessible educational materials at 3 education levels: ranging from advanced to expert and to make them available online for all EDTNA/ERCA members. Ultimately, we want to ensure that all members have access to practical information related to their respective fields and also to be able put to the test newly gained knowledge by means of learning outcomes and critical questions available at the end of each paper.

If you’re not currently a member of EDTNA/ERCA, register now and gain access to a wide range of education materials that can greatly benefit you in your clinical practice.

**New: Four new papers in the Electronic Library:**

- Anaemia of Chronic Kidney Disease (advanced level)
- Detecting and treating malnutrition in People with Chronic Kidney Disease (advanced level)
- Managing Change: the challenge for renal leaders (advanced level)
- Leadership in the Renal Unit (advanced level)

EDTNA/ERCA on TWITTER and LinkedIn – STAY UP TO DATE
Since January 2012 EDTNA/ERCA has joined the Social Media by opening own TWITTER account. With almost daily tweeting, EDTNA/ERCA spreads the news about what is going on in EDTNA/ERCA as well as informs about the most recent facts from the renal field. Follow every day the EDTNA/ERCA on Twitter at http://twitter.com/EDTNAERCA and find out what is going on. Since May 2014 the EDTNA/ERCA is on LinkedIn.

We look forward to meeting you all again in Dresden and if you aren’t already a Member, become one soon so you can have first-hand access to all our new Publications!
How to Join EDTNA/ERCA

You may register online and evaluate which membership category best suits your interests at: www.edtnaerca.org.

You may also contact Katarina Ödgren, the EDTNA/ERCA Membership Administrator at queries@edtnaerca.org.

Please note that membership registration will be processed upon receipt of payment. To contact your national EDTNA/ERCA representative (Brand Ambassador), visit the Leadership Directory on www.edtnaerca.org.

Express Yourself Board & Photo Wall

The Photo Wall will be situated at the EDTNA/ERCA booth in the exhibition area, booth No. 4. Each delegate can stop by to take a memory picture from the 44th EDTNA/ERCA International Conference.

The Express Yourself board is well known as the feedback/opinion board. It will be situated in the foyer in front of the session halls. Everyone can share with us their impressions, and of course their opinions which are very important for letting us know what you are thinking.
Good to Know About Dresden, Germany

Currency
Germany has been a member of the Euro zone since 1999 (€), and the Euro is legal tender throughout Germany.

Language
The main language is German, of course. However, you should be aware that there are many different regional accents and dialects, although High German is understood everywhere. Many Germans also speak good English, so there should not be any language barriers for foreign visitors.

Public Transportation
Dresden has a very well-structured public transport system. It is possible to use trams, buses, commuter railways, ferries or taxis in Dresden. For longer trips there is also the railway system.

There are 12 tram lines and 28 bus lines through the city area, running every 10 minutes during the day. Public transport in Dresden is running 24 hours 7 days a week. During the nights and weekends there is reduced public transport. Public transportation timetables can be found on Dresdner Verkehrsbetriebe AG public transport company and on their web-www.dvb.de (German, English). On their website the companies display the entire network, all timetables and connections. You can plan your journey according to your own individual requirements here. The web-site also provides information about the prices of tickets and where they can be purchased. You can also find information about departure times at every bus or tram stop. You can buy tickets at the stops, on the trams or buses and at service points. You must then stamp your tickets in the machines on the vehicle. If you use public transport often, it is advisable to buy a multiple-trip ticket, a monthly ticket or a yearly ticket. Do not ride without a ticket as checks are often made. If you are caught without a valid ticket you’ll have to pay a fine.

Where to Find Help?
Safe medical care is a basic principle in Germany. The city of Dresden has a university hospital and different urban hospitals. There are also doctors who speak foreign languages and there is an international pharmacy. An official tourist information line Tourist Hotline +49 (0) 351 501 501 has been set up for tourists convenience. As in every European Union Member State, safety in Dresden is ensured by several services that you can call 24-hours a day. You should call 112 (free of charge) in any unusual or extreme situation.

The most important emergency numbers
- Police: 110
- Fire Station: 112
- Medical Emergencies: +49 (0) 351 192 92
- Fire and catastrophe office: +49 (0) 351 815 50

Dresden in Basic Facts
Area: 328.31 km²
Population: 530,729 inhabitants

Most important sights at a glance
Dresden carries visitors away with a synthesis of the arts: fascinating buildings and art treasures, impressive museums, as well as orchestras and choirs of worldwide reputation.

Dresden offers attractions in great variety and combines three aspects which complement one another: notable art treasure, architectural sights and a charming landscape. Magnificent promenades on the bank of the Elbe, interesting museums and institutions, industrial monuments, charming details. A trip to Dresden is always a great experience.
 Granted, none of the seven wonders of the ancient world are to be found in Dresden. Back then, the river was probably still busy sculpting the natural features of the local sandstone. The wait was rewarded with a magnificent landscape, but in later times, the Elbe valley saw such a blossoming of architectural and artistic brilliance that the visitor today forgets to count and can only rub his eyes in wonder.

The Church of Our Lady (Frauenkirche), Royal Palace, Zwinger, Semper Opera House, Elbe castles, Villa Quarter, Hellerau garden city or the award-winning modern buildings – not forgetting the ‘Blue Wonder’ bridge to the east of the city centre. It seems the likes of Augustus the Strong and his successors were not prepared to wait for nature to finish the job; with their skill, artistry and determination, they filled the Grüne Gewölbe (Green Vault) and Türkische Kammer (Turkish Chamber) with treasures from all over the world, collected paintings and porcelain, and were patrons of the great composers. No wonder then that Dresden today ranks as a world-class city of art and culture.

**Germany Basic Facts**
- **Area:** 357,021 km²
- **Capital:** Berlin
- **Population:** 80.2 million (2011)
- **Currency:** Euro
- **Official Languages:** German

**Type of Government:**
Germany is a federal, parliamentary, representative democratic republic. The president is the head of state and invested primarily with representative responsibilities and powers. He is elected by the Bundesversammlung (federal convention), an institution consisting of the members of the Bundestag and an equal number of state delegates. The second-highest official in the German order of precedence is the Bundestagspräsident (President of the Bundestag), who is elected by the Bundestag and responsible for overseeing the daily sessions of the body.
